

How to Help your Child Love Learning

A STEP-BY-STEP GUIDE

1.) INTEREST QUESTIONNAIRE

Administer the questionnaire to gather information about your child's interests.

2.) PICK READING & WRITING MATERIAL THAT HIGHLIGHTS THEIR INTERESTS

Use the information gathered from the interest questionnaire to pick reading materials that your child will enjoy reading and writing about.

3.) INCREASE MOTIVATION BY OFFERING CHOICE

Your child will view the activity as more important when they are given choices. Choice increases effort, performance, and understanding.

4.) CREATE OPPORTUNITIES FOR PROJECTS THAT ENHANCE UNDERSTANDING

Find activities that involve hands on learning or technology to support learning.

5.) EXCITE YOUR CHILD THROUGH MOVEMENT

Include movement when choosing learning activities. These activities have a positive influence on learning and will boost your child's interest levels, which keeps learning fun.
